Marine Chemistry, Vol. 30 (1990)

Preface vii

Research Papers

Ocean–atmosphere interactions in the global biogeochemical sulfur cycle
M.O. Andreae (Mainz, F.R.G.) 1

Chemistry of superoxide ion–radical (O^-_2) in seawater. I. $pK^*_{a_{sw}}$ (HOO) and uncatalyzed dismutation kinetics studied by pulse radiolysis
O.C. Zafiriou (Woods Hole, MA, U.S.A.) 31

Molecular probe systems for reactive transients in natural waters
O.C. Zafiriou, N.V. Blough, E. Micinski, B. Dister, D. Kieber and J. Moffett (Woods Hole, MA, U.S.A.) 45

Determination of photochemically produced hydroxyl radicals in seawater and freshwater
X. Zhou and K. Mopper (Miami, FL, U.S.A.) 71

Photoinitiated transformation of glycolic acids in aqueous solution
S. Klementova (Česke Budejovice, Czechoslovakia) and D.M. Wagnerova (Prague, Czechoslovakia) 89

Model studies of photochemical oxidation of carcinogenic polyaromatic hydrocarbons
L. Paalme, N. Irha, E. Urbas, U. Kirso (Tallinn, U.S.S.R.) and A. Tsyban (Moscow, U.S.S.R.) 105

Synergistic effects of air pollutants on the atmospheric corrosion of metals and calcareous stones
L.G. Johansson (Gothenburg, Sweden) 113

Chemical insights into the interactions of the atmosphere with metals
T.E. Graedel (Murray Hill, NJ, U.S.A.) 123

Atmospheric and marine trace chemistry; interfacial biomediation and monitoring
F.E. Brinckman and G.J. Olsen (Gaithersburg, MD, U.S.A.) 147

Dissolved organic carbon in the ocean
E.A. Romankevich and S.V. Ljutsarev (Moscow, U.S.S.R.) 161

Non-biotic synthesis of organic polymers on H_2S-rich sea-floor: a possible reaction in the origin of life
T. Kimoto (Osaka, Japan) and T. Fujinaga (Nara, Japan) 179

Increasing hydrogen sulfide concentration and trace metal behavior in the anoxic Baltic waters
D. Dyrssen (Gothenburg, Sweden) and K. Kremling (Kiel, F.R.G.) 193

Marine solution chemistry and ionic interactions
F.J. Millero (Miami, FL, U.S.A.) 205

The influence of dissolved carbon dioxide on trace metal speciation in seawater
J. Bruno (Stockholm, Sweden) 231

Distribution of Pu(V) and Pu(VI) in seawater
G.R. Choppin and A. Kobashi (Tallahassee, FL, U.S.A.) 241

Understanding the marine chemistries of the platinum group metals
E.D. Goldberg and M. Koide (La Jolla, CA, U.S.A.) 249

Recent investigation of total carbonate in the Baltic Sea: changes from the past as a result of acid rain?
M. Ohlsen and L. Anderson (Gothenberg, Sweden) 259

Chemical processes at the sediment–water interface

P. Santschi, G. Benoit (Galveston, TX, U.S.A.), P. Höhener (Duebendorf, Switzerland) and M. Buchholtz-ten Brink (Livermore, CA, U.S.A.) 269
Solid–solute phase equilibria in aqueous solution. III. A new application of an old chemical potentiometer
E. Königsberger and H. Gamsjäger (Leoben, Austria) 317
An electrochemical monitor for studying the kinetics of solid–liquid surface absorption in seawater
P. Gang, Z. Manping and Z. Zhengbin (Qingdao, People's Republic of China) 329
Accumulation of carcinogenic hydrocarbons at the sediment–water interface
U. Kirso, L. Paalme, M. Voll, E. Urbas and N. Irha (Tallinn, U.S.S.R.) 337

Research Papers
Recovery of urea nitrogen from seawater for measurement of ^{15}N abundance in urea regeneration studies using the isotope-dilution approach
G. Slawyk, P. Raimbault (Marseille, France) and S. L'Helguen (Brest, France) 343
Carbon and nitrogen budgets of the Arabian Sea
K. Somasundar, A. Rajendran, M. Dileep Kumar and R. Sen Gupta (Goa, India) 363
Hydrocarbon pollution in particle-rich waters (Gulf of Fos-sur-mer): comparative study of extraction procedures
R. Siron and G. Giusti (Marseille, France) 379
Nd isotopes as tracers in water column particles: the western Mediterranean Sea
F.E. Grousset (Talence, France), F. Henry, J.F. Minster (Toulouse, France) and A. Monaco (Perpignan, France) 389

Short Note
A method for the measurement of choline and hydrogen peroxide in seawater
M.A. Roulier, B. Palenik and F.M.M. Morel (Cambridge, MA, U.S.A.) 409
